PART 1 - GENERAL INFORMATION

1. Introduction

The bid solicitation is divided into six parts plus attachments and annexes, as follows:

- Part 1 General Information: provides a general description of the requirement;
- Part 2 Bidder Instructions: provides the instructions, clauses and conditions applicable to the bid solicitation;
- Part 3 Bid Preparation Instructions: provides bidders with instructions on how to prepare their bid;
- Part 4 Evaluation Procedures and Basis of Selection: indicates how the evaluation will be conducted, the evaluation criteria that must be addressed in the bid, and the basis of selection;
- Part 5 Certifications: includes the certifications to be provided;
- Part 6 Resulting Contract Clauses: includes the clauses and conditions that will apply to any resulting contract.

The Annexes include the Statement of Work, the Basis of Payment, the Disclosures Certification and the Mandatory Criteria, Evaluation Criteria and Selection Method.

2. Summary

Defence Research and Development Canada (DRDC) - Suffield, Medicine Hat, Alberta, has a requirement for which the objective is to advance the state of the art in tracked all-terrain amphibious vehicle design, and to create a single vehicle platform that can be operated as both a man-drivable asset and a robotic asset for transport, load carriage, and other applications, as outlined in the Statement of Work, Annex "A".

The period of the contract is from date of award to December 31, 2013, inclusive.

3. Debriefings

After contract award, bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days of receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

PART 2 - BIDDER INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2012-07-11) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

The text under Subsection 4 of Section 01 - Code of Conduct and Certifications - Bid of 2003 referenced above is replaced by:

Bidders should provide, with their bid or promptly thereafter, a complete list of names of all individuals who are currently directors of the Bidder. If such a list has not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to provide such a list within the required time frame will render the bid non-responsive. Bidders must always submit the list of directors before contract award.

Canada may, at any time, request that a Bidder provide properly completed and Signed Consent Forms ([Consent to a Criminal Record Verification form](http://www.tpsgc-pwgsc.gc.ca/app-acq/forms/formulaire-forms-eng.html) - PWGSC-TPSGC 229) (<http://www.tpsgc-pwgsc.gc.ca/app-acq/forms/formulaire-forms-eng.html>) for any or all individuals named in the aforementioned list within a specified delay. Failure to provide such Consent Forms within the delay will result in the bid being declared non-responsive.

The text under Subsection 5 of Section 01 - Code of Conduct and Certifications - Bid of 2003 referenced above is replaced by:

The Bidder must diligently maintain the list up-to-date by informing Canada in writing of any change occurring during the validity period of the bid, and must also provide Canada, when requested, with the corresponding Consent Forms. The Bidder will also be required to diligently maintain the list and when requested, provide Consent Forms during the period of any contract arising from this bid solicitation.

1.1 Manual SACC Clauses

A0220T (2007-05-25), Evaluation of Price

2. Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than five (5) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

4. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Alberta.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

5. Maximum Funding

The maximum funding available for the Contract resulting from the bid solicitation is \$500,000.00 (Goods and Services Tax or Harmonized Sales Tax extra, as appropriate). Bids valued in excess of this amount will be considered non-responsive. This disclosure does not commit Canada to pay the maximum funding available.

Estimated fiscal year cash phasing breakdown as follows:

FY 2012-2013 \$ 350,000.00, GST extra

FY 2013-2014 \$ 150,000.00, GST extra

PART 3 - BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (2 hard copies)
 Section II: Financial Bid (1 hard copy)
 Section III: Certifications (1 hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders are encouraged to :

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and/or containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, bidders should demonstrate their understanding of the requirements contained in the bid solicitation and explain how they will meet these requirements. Bidders should demonstrate their capability and describe their approach in a thorough, concise and clear manner for carrying out the work.

The technical bid should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the bid will be evaluated. Simply repeating the statement contained in the bid solicitation is not sufficient. In order to facilitate the evaluation of the bid, Canada requests that bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, bidders may refer to different sections of their bids by identifying the specific paragraph and page number where the subject topic has already been addressed.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment in Annex "B". The total amount of Goods and Services Tax or Harmonized Sales Tax must be shown separately, if applicable.

1.1 Exchange Rate Fluctuation

C3011T (2010-01-11), Exchange Rate Fluctuation

Section III: Certifications

Bidders must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION**1. Evaluation Procedures**

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

1.1 Technical Evaluation

Mandatory and point rated technical criteria are included in Annex "D".

1.2 Financial Evaluation

To obtain the total evaluated bid price, the financial evaluation will be based on the Firm Lot Price proposed in Annex "B" not exceeding the established budget for this requirement.

2. Basis of Selection - Highest Rated Within Budget

To be declared responsive, a bid must:

- (a) comply with all the requirements of the bid solicitation;
- (b) meet all mandatory technical evaluation criteria; and
- (c) obtain the required minimum points for the technical evaluation criteria which are subject to point rating.

2. Bids not meeting (a) or (b) or (c) will be declared non responsive. The responsive bid with the highest number of points will be recommended for award of a contract, provided that the total evaluated price does not exceed the budget available for this requirement.

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications to be awarded a contract. Canada will declare a bid non-responsive if the required certifications are not completed and submitted as requested.

Compliance with the certifications bidders provide to Canada is subject to verification by Canada during the bid evaluation period (before award of a contract) and after award of a contract. The Contracting Authority will have the right to ask for additional information to verify bidders' compliance with the certifications before award of a contract. The bid will be declared non-responsive if any certification made by the Bidder is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications or to comply with the request of the Contracting Authority for additional information will also render the bid non-responsive.

1. Code of Conduct Certifications - Certifications Required Precedent to Contract Award

1.1 Bidders should provide, with their bid or promptly thereafter, a complete list of names of all individuals who are currently directors of the Bidder. If such a list has not been received by the time the evaluation of bids is completed, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Bidders must submit the list of directors before contract award, failure to provide such a list within the required time frame will render the bid non-responsive.

The Contracting Authority may, at any time, request that a Bidder provide properly completed and Signed Consent Forms ([Consent to a Criminal Record Verification form - PWGSC-TPSGC 229](http://www.tpsgc-pwgsc.gc.ca/app-acq/forms/formulaires-forms-eng.html)) (<http://www.tpsgc-pwgsc.gc.ca/app-acq/forms/formulaires-forms-eng.html>) for any or all individuals named in the aforementioned list within a specified delay. Failure to provide such Consent Forms within the delay will result in the bid being declared non-responsive.

2. Certifications Precedent to Contract Award

The certifications listed below should be completed and submitted with the bid but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

2.1 Federal Contractors Program - Certification - \$200,000 or more

1. The Federal Contractors Program (FCP) requires that some suppliers, including a supplier who is a member of a joint venture, bidding for federal government contracts, valued at \$200,000 or more (including all applicable taxes), make a formal commitment to implement employment equity. This is a condition precedent to contract award. If the Bidder, or, if the Bidder is a joint venture and if any member of the joint venture, is subject to the FCP, evidence of its commitment must be provided before the award of the Contract.

Suppliers who have been declared ineligible contractors by Human Resources and Skills Development Canada (HRSDC) are no longer eligible to receive government contracts over the threshold for solicitation of bids as set out in the [Government Contracts Regulations](#). Suppliers may be declared ineligible

contractors either as a result of a finding of non-compliance by HRSDC, or following their voluntary withdrawal from the FCP for a reason other than the reduction of their workforce to less than 100 employees. Any bids from ineligible contractors, including a bid from a joint venture that has a member who is an ineligible contractor, will be declared non-responsive.

2. If the Bidder does not fall within the exceptions enumerated in 3.(a) or (b) below, or does not have a valid certificate number confirming its adherence to the FCP, the Bidder must fax (819-953-8768) a copy of the signed form LAB 1168,

<http://www.servicecanada.gc.ca/cgi-bin/search/eforms/index.cgi?app=profile&form=lab1168&dept=sc&lang=e>

Certificate of Commitment to Implement Employment Equity, to the Labour Branch of HRSDC.

3. The Bidder, or, if the Bidder is a joint venture the member of the joint venture, certifies its status with the FCP, as follows:

The Bidder or the member of the joint venture

- (a) () is not subject to the FCP, having a workforce of less than 100 full-time or part-time permanent employees, and/or temporary employees having worked 12 weeks or more in Canada;
- (b) () is not subject to the FCP, being a regulated employer under the Employment Equity Act, <http://laws-lois.justice.gc.ca/eng/acts/E-5.401/index.html> S.C. 1995, c. 44;
- (c) () is subject to the requirements of the FCP, having a workforce of 100 or more full-time or part-time permanent employees, and/or temporary employees having worked 12 weeks or more in Canada, but has not previously obtained a certificate number from HRSDC (having not bid on requirements of \$200,000 or more), in which case a duly signed certificate of commitment is attached;
- (d) () is subject to the FCP, and has a valid certificate number as follows: _____ (e.g. has not been declared an ineligible contractor by HRSDC.)

Further information on the FCP is available on the HRSDC Web site. _

<Http://www.hrsdc.gc.ca/eng/labour/equality/fcp/index.shtml>

2.2 Former Public Servant Certification

Contracts with former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts with FPS, bidders must provide the information required below.

Definitions

For the purposes of this clause,

"former public servant" is any former member of a department as defined in the Financial Administration Act, R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- (a) an individual;
- (b) an individual who has incorporated;
- (c) a partnership made of former public servants; or

(d) a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means, in the context of the fee abatement formula, a pension or annual allowance paid under the Public Service Superannuation Act (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the Supplementary Retirement Benefits Act, R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the Canadian Forces Superannuation Act, R.S., 1985, c. C-17, the Defence Services Pension Continuation Act, 1970, c. D-3, the Royal Canadian Mounted Police Pension Continuation Act, 1970, c. R-10, and the Royal Canadian Mounted Police Superannuation Act, R.S., 1985, c. R-11, the Members of Parliament Retiring Allowances Act, R.S., 1985, c. M-5, and that portion of pension payable to the Canada Pension Plan Act, R.S., 1985, c. C-8.

Former Public Servant in Receipt of a Pension

Is the Bidder a FPS in receipt of a pension as defined above? YES () NO ()

If so, the Bidder must provide the following information:

- (a) name of former public servant;
- (b) date of termination of employment or retirement from the Public Service.

Work Force Reduction Program

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of a work force reduction program? YES () NO ()

If so, the Bidder must provide the following information:

- (a) name of former public servant;
- (b) conditions of the lump sum payment incentive;
- (c) date of termination of employment;
- (d) amount of lump sum payment;
- (e) rate of pay on which lump sum payment is based;
- (f) period of lump sum payment including start date, end date and number of weeks;
- (g) number and amount (professional fees) of other contracts subject to the restrictions of a work force reduction program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including the Goods and Services Tax or Harmonized Sales Tax.

Certification

By submitting a bid, the Bidder certifies that the information submitted by the Bidder in response to the above requirements is accurate and complete.

2.3 Status and Availability of Resources

The Bidder certifies that, should it be awarded a contract as a result of the bid solicitation, every individual proposed in its bid will be available to perform the Work as required by Canada's representatives and at the time specified in the bid solicitation or agreed to with Canada's representatives. If for reasons beyond its control, the Bidder is unable to provide the services of an individual named in its bid, the Bidder may propose a substitute with similar qualifications and experience. The Bidder must advise the Contracting Authority of the reason for the substitution and provide the name, qualifications and experience of the proposed replacement. For the purposes of this clause, only the following reasons will be considered as beyond the control of the Bidder: death, sickness, maternity and parental leave, retirement, resignation, dismissal for cause or termination of an agreement for default.

If the Bidder has proposed any individual who is not an employee of the Bidder, the Bidder certifies that it has the permission from that individual to propose his/her services in relation to the Work to be performed and to submit his/her résumé to Canada. The Bidder must, upon request from the Contracting Authority, provide a written confirmation, signed by the individual, of the permission given to the Bidder and of his/her availability.

2.4 Education and Experience

2.4.1 SACC Manual clause A3010T (2010-08-16), Education and Experience

PART 6 - RESULTING CONTRACT CLAUSES

The following clauses and conditions apply to and form part of any contract resulting from the bid solicitation.

1. Statement of Work

The Contractor must perform the Work in accordance with the Statement of Work at Annex "A" and the Contractor's technical portion of the Contractor's bid entitled _____, dated _____.

2. Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the *Standard Acquisition Clauses and Conditions Manual* (<https://buyandsell.gc.ca/policy-and-guidelines/standard-acquisition-clauses-and-conditions-manual>) issued by Public Works and Government Services Canada.

2.1 General Conditions

2040 (2012-07-16), General Conditions - Research & Development, apply to and form part of the Contract.

The text under Subsection 4 of Section 52 - Code of Conduct and Certifications - Contract of 2040 referenced above is replaced by:

During the entire period of the Contract, the Contractor must diligently update, by written notice to the Contracting Authority, the list of names of all individuals who are directors of the Contractor whenever there is a change. As well, whenever requested by Canada, the Contractor must provide the corresponding Consent Forms.

3. Term of Contract

3.1 Period of the Contract

The period of the contract is from date of award to December 31, 2013, inclusive.

4. Authorities

4.1 Contracting Authority

The Contracting Authority for the Contract is:

Jasmine Scott
Supply Specialist
Acquisitions, Western Region
Department of Public Works and Government Services
Telus Plaza North,
10025 Jasper Avenue, 5th Floor
Edmonton, AB T5J 1S6

Telephone: (780) 497-3578
Facsimile: (780) 497-3510
E-mail address: jasmine.scott@pwgsc-tpsgc.gc.ca

Solicitation No. - N° de l'invitation

W7702-135560/A

Amd. No. - N° de la modif.

edm002

Client Ref. No. - N° de réf. du client

W7702-135560

File No. - N° du dossier

EDM-2-35251

CCC No./N° CCC - FMS No/ N° VME

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

4.2 Technical Authority

(To be provided at Contract award)

The Technical Authority for the Contract is:

Name: _____

Title: _____

Organization: _____

Address: _____

Telephone: ____-____-_____

Facsimile: ____-____-_____

E-mail: _____.

The Technical Authority named above is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Technical Authority, however the Technical Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

4.3 Administrative Authority

(To be provided at Contract award)

The Administrative Authority for the Contract is:

Name: _____

Title: _____

Organization: _____

Address: _____

Telephone: ____-____-_____

Facsimile: ____-____-_____

E-mail address: _____

4.4 Contractor's Representative

(To be filled out by Bidder)

Name: _____

Title: _____

Telephone: ____-____-_____

Facsimile: ____-____-_____

E-mail address: _____

5. Payment

5.1 Basis of Payment - Firm Price

In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid a firm price, as specified in Annex "B" for a cost of \$ _____ (*amount to be included at contract award*). Customs duties are included and Goods and Services Tax or Harmonized Sales Tax is extra, if applicable.

Canada will not pay the Contractor for any design changes, modifications or interpretations of the Work, unless they have been approved, in writing, by the Contracting Authority before their incorporation into the Work

5.2 Limitation of Price

SACC Manual clause C6000C (2011-05-16), Limitation of Price

5.3 Milestone Payments

1. Canada will make milestone payments in accordance with the Schedule of Milestones detailed in the Contract and the payment provisions of the Contract, up to 90 percent of the amount claimed and approved by Canada if:

a. an accurate and complete claim for payment using form PWGSC-TPSGC-WR01, Claim for Progress Payment, and any other document required by the Contract have been submitted in accordance with the invoicing instructions provided in the Contract;

b. the total amount for all milestone payments paid by Canada does not exceed 90 percent of the total amount to be paid under the Contract;

c. all the certificates appearing on form PWGSC-TPSGC-WR01 have been signed by the respective authorized representatives;

d. all work associated with the milestone and as applicable any deliverable required have been completed and accepted by Canada.

2. The balance of the amount payable will be paid in accordance with the payment provisions of the Contract upon completion and delivery of all Work required under the Contract if the Work has been accepted by Canada and a final claim for the payment is submitted.

5.4 Discretionary Audit

SACC Manual Clause C0705C (2010-01-11), Discretionary Audit

5.5 T1204 - Direct Request by Customer Department

SACC Manual Clause A9117C (2007-11-30), T1204 - Direct Request by Customer Department

5.6 SACC Manual Clauses

C2000C (2007-11-30), Foreign-based Contractor

C2604C (2010-01-11), Customs Duties, Excise Taxes and GST/HST - Non-resident

6. Invoicing Instructions

6.1 Invoice Instructions - Progress Payment Claim

6.1.1 The Contractor must submit a claim for progress payment using form PWGSC-WR01 to the Administrative Authority.

Each claim must show:

(a) all information required on form PWGSC-WR01;

-
- (b) all applicable information detailed under the section entitled "Invoice Submission" of the general conditions;
 - (c) expenditures in accordance with the Basis of Payment for the Work performed during the period of the claim;
 - (d) holdback of 10 percent;
 - (e) total of all previous claims against the Contract and the extension of the totals to date;

Each claim must be supported by:

- (a) a copy of time sheets to support the time claimed;
- (b) two (2) sets of copies of the invoices, receipts, vouchers for all direct expenses, travel and living expenses;
- (c) a copy of the monthly progress report.

6.1.2 Goods and Services Tax (GST) or Harmonized Sales Tax (HST), as applicable, must be calculated on the total amount of the claim before the holdback is applied. At the time the holdback is claimed, there will be no GST/HST payable as it was claimed and payable under the previous claims for progress payments.

6.1.3 The Contractor must prepare and certify one original and two (2) copies of the claim on form PWGSC-WR01, and forward it to the Administrative Authority identified under the section entitled "Authorities" of the Contract for appropriate certification after inspection and acceptance of the Work takes place.

6.1.4 The Contractor must not submit claims until all work identified in the claim is completed.

7. Certifications

7.1 Compliance with the certifications provided by the Contractor in its bid is a condition of the Contract and subject to verification by Canada during the term of the Contract. If the Contractor does not comply with any certification or it is determined that any certification made by the Contractor in its bid is untrue, whether made knowingly or unknowingly, Canada has the right, pursuant to the default provision of the Contract, to terminate the Contract for default.

7.2 Disclosures Certification

On completion of the Work, the Contractor must submit to the Technical Authority and to the Contracting Authority a copy of the Disclosure Certification attached as Annex "C" stating that all applicable disclosures were submitted or that there were no disclosures to submit under general conditions 2040.

8. Applicable Laws

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Alberta.

9. Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

ANNEX "A"

STATEMENT OF WORK

1. Title

Prototype Robotic All-Terrain Vehicle

2. Background

Defence R&D Canada (DRDC) is an agency of the Canadian Department of National Defence that responds to the scientific and technological needs of the Canadian Forces (CF). As such, DRDC is pursuing the development of a prototype small all-terrain vehicle (ATV) for personal transport and load carriage.

The Canadian Forces are tasked to operate in a wide variety of terrains and climates, including arctic, desert, jungle, mountain and urban environments. As such, any vehicles the CF use need to be as versatile as possible. Small ATVs are currently only used in limited roles within the military, and have limited amour and armament capabilities. However, given the unmatched mobility performance of ATVs, they have an important and growing niche to fill in the Canadian Forces. However, current ATV systems are almost exclusively wheeled, and most are not amphibious, limiting their mobility in marginal terrains. Those ATVs that are amphibious are slower and have reduced mobility over rough terrain.

Small ATVs could also be used in a robotic "mule" role to support dismounted military operations. Such vehicles are used to carry supplies for a group of soldiers maneuvering on foot, carrying their basic load of supplies and non-critical equipment, thereby increasing soldier mobility, endurance, and capabilities. These vehicles can also provide other roles such as reconnaissance, radio re-broadcast, or casualty evacuation. They can typically be tele-operated or function in a semi-autonomous fashion, able to follow pre-determined paths or human leaders while avoiding obstacles in the environment. These vehicles are typically controlled from a back-pack mounted control station worn by the human operator. Such prototype vehicles as the Squad Mission Support System and the Ground Unmanned Support Surrogate are currently in testing with the United States military.

The combination of a fast and highly mobile amphibious ATV and a robotic system could change the way dismounted soldiers operate.

3. Objective

The objective of this contract is to advance the state of the art in tracked all-terrain amphibious vehicle design, and to create a single vehicle platform that can be operated as both a man-drivable asset and a robotic asset for transport, load carriage, and other applications.

4. Scope of Work

The contractor will develop an all-terrain vehicle capable of carrying two human operators and their equipment. The vehicle must be fast and able to travel over soft terrains such as snow and mud, and able to remain afloat and propel itself in the water. At the end of the contract, two prototype vehicles will be delivered:

- 1) Mobility Platform Vehicle - A purely human driven vehicle to test and demonstrate the mobility of the all-terrain vehicle design. It must maintain the traditional all-terrain mobility for slopes and rough terrain, while adding the ability to traverse soft terrains such as snow and mud, and even crossing bodies of water.

-
- 2) **Robotic Mule Vehicle** - A second version of the mobility platform complete with sensors and computing power to operate as a robotic mule for dismounted soldiers. This version must be remotely operated from a backpack using tele-operated driving, robotic follower, or by GPS waypoints with obstacle avoidance.

Contract Delivery:

The contract will be delivered in a number of Milestones:

Milestone 1 – Mobility Platform Vehicles Design: This task will involve the design of the vehicle platform, including choosing the type, size and physical location of mechanical and electrical components such as the engine, batteries, drive-train, suspension, bogey wheels, tracks, etc. This milestone will be considered complete with the delivery of a preliminary design report.

Milestone 2 – Robotic Systems Design: This task will accomplish the design of the processing and sensing software and hardware for the prototype robotic vehicle. This milestone will be considered complete with the delivery of a preliminary design report.

Milestone 3 - Mobility Platform Component Construction/Purchase: This task will consist of the manufacture and/or purchase of the vehicle sub-components required for the mobility platform.

Milestone 4 – Mobility Platform Assembly: This task will consist of assembly of the prototype vehicle platform into a working unit. This milestone will be considered complete with the demonstration of a functioning vehicle prototype. At this point, there may be preliminary test and demonstration with Canadian Forces personnel to evaluate the vehicle concept and provide feedback for development.

Milestone 5– Robotic Components Installation: This task will consist of the purchase, assembly and installation of the robotic components onto one of the Mobility Platform units. This milestone will be considered complete with the demonstration of a functioning robotic prototype.

Milestone 6 – Final Vehicle Delivery: This milestone will allow full testing of the vehicle performance in relevant environments, temperatures, and vehicle loads. As a prototype system, it is expected to require a “breaking-in” period to discover its mechanical and electrical characteristics. This milestone will allow time for the contractor to fully understand and improve the quality of the prototype. This milestone will be considered complete with final delivery of the Mobility Platform vehicle and the Robotic System vehicle to DRDC Suffield. This delivery will require a full demonstration of all vehicle and robotic capabilities.

5. Meetings

No meetings are necessarily required for this project; however, there is a possibility of a kickoff meeting to be held at the contractor location.

6. Reports and Deliverables

The contractor will supply a report at the completion of each of the milestones listed above that will detail the work completed in the task, the results accomplished, and the potential risks that are foreseen to the project success. At the completion of Milestone 5, the contractor will also deliver a report detailing the specific design of the vehicle including details of purchased sub-components, mechanical drawings, wiring diagrams etc. This report will also contain results of any test and evaluation conducted on the prototype vehicle. The contractor will also furnish the completed vehicles to the contracting authority upon completion of the contract.

7. Government Furnished Support/Equipment/Information

For Milestone 4 and 6, any testing conducted on training exercises with the Canadian Forces will be entirely at the expense of the Government of Canada.

8. Special Considerations

If the contract is successful, there is a strong possibility of a follow-on contract to further develop and refine the technology, making it practical for commercial production and operational use with the CF.

9. Acceptance Criteria

The work will be monitored regularly for adherence to the work plan and to approve any modifications which may be required. Acceptance will be determined following examination, satisfactory completion and acceptance of the final report by the Technical Authority. Furthermore, the following performance specifications must be met for successful completion of this work (at the end of Milestone 6):

Mobility Platform Requirements:

- Must be able to have seating for 2 soldiers in a side-by-side configuration.
- Must be automatic transmission (continuously variable transmission or other)
- Must be equipped with tracked running gear to provide flotation in soft terrains (can travel in a minimum 30 cm of loose snow, sand, or mud). The vehicle must be designed as a fully tracked system, and must not consist of tracks fit over regular pneumatic tires. Furthermore, the track system must have a suitable suspension for rapid travel over rough terrain.
- Must have near zero turn radius to pivot the vehicle on the spot for greater mobility in forested or cluttered terrains.
- Must have the ability to float in water without cargo, but with 2 operators on board. Must be able to propel itself in water at a minimum of 5km/hr.
- Gasoline or diesel powered internal combustion engine with a minimum of 70 horsepower, and range of at least 200km.
- Cargo box for payload of at a minimum of 1m x 1m dimensions.
- Ground clearance of at a minimum of 30cm.
- Curb vehicle weight must be less than 1000 kg.
- Payload capacity of at a minimum of 500 kg.
- Minimum tow hitch capacity and minimum overall towing capacity of 450kg
- Minimum top speed of 60 km/hr.
- Must be stable on a 25 degree side slope.
- Must be capable of climbing a 25 degree slope.
- Vehicle dimensions must be less than 3.5m (l) x 2.0 m (h) x 2.0m (w).
- Noise signature must be less than 80dba at 15m (tested to SAE J1161 procedure titled "Operational Sound Level Measurement Procedure for Snow Vehicles".
Found at the following location from the American National Standards Institute (ANSI).
<http://webstore.ansi.org/RecordDetail.aspx?sku=SAE+J+1161-2004+%28SAE+J1161-2004%29#.UHcK-IJ0nTo>
- Operational temperature must have a range of -40 deg C to +52 deg C in all weather.
- Must have tie-downs and tow-hooks for transportation in aircraft.
- Must have ability to power external 12VDC, 24VDC and 110 VAC equipment. 110 VAC must be able to supply at a minimum of 500 W of power.

Robotic Vehicle Requirements:

The robotic version of the vehicle should be built on the mobility platform as specified above. All of the requirements apply, except as detailed below:

- Must have full tele-operated mode allowing user control of vehicles speed, steering, and brakes.
- Must have remote E-Stop to halt vehicle operations.
- Must have semi-autonomous operating modes, including:
 - o "Follow-me" mode to cause the robot to follow the path taken by the human leader .
 - o GPS waypoint mode to allow the user to provide the vehicle a path as a series of locations.
 - o "Target" mode where the operator visually specifies a target location for the vehicle to move to.
 - o "Return to me" and "return home" modes for recovery.
- Must have obstacle avoidance behavior active in all semi-autonomous modes to prevent the vehicle from hitting obstacles (both positive and negative) and people in its environment.
- Minimum semi-autonomous speed of 8 km/hr.
- Vehicle must be man-drivable in addition to all robotic modes.
- Must be able to use a Portable operator control unit (OCU), capable of initiating and controlling robot actions:
 - o Man-portable in backpack with self-contained battery supply and minimum battery life of 2 hours.
 - o Wireless radio connection to vehicle with a minimum range of 1km line of sight and a minimum of 300m non-line of sight.
 - o Ability to view video data from the vehicle.
 - o Ability to view vehicle state.
- The robotic version of the vehicle is not required to be amphibious, but it is desirable.
- Minimum payload capacity of 450kg.
- Operational temperature range must be 0 to +40 deg C in clear weather, light rain or light fog .

10. Intellectual Property

The contractor will be allowed to retain all Foreground Intellectual Property (IP) generated during the conduct of this work. However, the Government of Canada is to be granted a no-fee, non-exclusive, perpetual license to use or have used the Foreground IP for government purposes.

The Contractor shall not publish or otherwise distribute reports generated or their contents to third parties without the written consent from the Technical Authority, who will respond to a request within 30 days of receipt.

11. DRDC-Suffield General Contract Safety & Security Requirements**(1) GENERAL EXPERIMENTAL PROVING GROUNDS (EPG) SAFETY AND ACCESS INFORMATION**

In accordance with DRDC Suffield regulations, all Contractor employees and subcontractors participating in Experimental Proving Ground (EPG) activities that are not escorted by DRDC Suffield personnel or the DRDC-authorized Contract principal will attend a general EPG safety briefing lasting approximately one (1) hour at the Field Operations Section (FOS). This briefing will take place annually for long standing Contracts and new or additional Contractor employees or subcontractors will be required to take the briefing before beginning work.

An access permit is required for non-DND vehicles travelling on the EPG. In addition, a two-way radio, compatible with the DRDC Suffield communication system, will be supplied for safety reasons. Other forms/briefings related to safety and security may be required.

(2) WORK-SPECIFIC SAFETY BRIEFING

Solicitation No. - N° de l'invitation

W7702-135560/A

Amd. No. - N° de la modif.

File No. - N° du dossier

EDM-2-35251

Buyer ID - Id de l'acheteur

edm002

Client Ref. No. - N° de réf. du client

W7702-135560

CCC No./N° CCC - FMS No/ N° VME

Contractors employees or subcontractors supporting DRDC Suffield personnel on specific Field Trial Plans (FTP's), Standing Operating Procedures (SOP's), Study Approval Form (SAF), or other procedure will attend work-specific briefings by the DRDC Technical Authority (TA) lasting approximately one (1) hour relating to health, safety, environmental and emergency response procedures. Documentation including FTP's, SOP's, SAF or other procedures, safety standards and EPG regulations will be cited or made available to the Contractor employees or subcontractors on a loan basis for reference, as applicable.

(3) OBSERVANCE OF ON-SITE SAFETY, HEALTH AND ENVIRONMENTAL STANDARDS ON PROTECTION OF PROPERTY

The Contractor, their employees and subcontractors must comply with all DND/DRDC Suffield regulations in force at the worksite, including the observance of all safety, health and environmental standards and those in place to preserve and protect DND property from loss or damage from all causes including fire.

(4) COMPLIANCE

The Contractor is responsible to ensure that all employees and subcontractors that will be working on the site are fully briefed and have completed and signed the Safety Checklist prior to the start of any portion of the on site work. A copy of the signed checklist must be provided by the Contractor to the DRDC Suffield Technical Authority. No payments will be issued until all documentation is in place.

ANNEX "B"
BASIS OF PAYMENT

Payment will be made in accordance with the payment schedule below, following receipt and acceptance by the Technical Authority of the relevant Milestone Report. Each report will consist of a narrative which should contain a description of the Work completed under the milestone; and any problems encountered or foreseen (relating to time, cost or technical matters). Milestones are to correspond to the level of effort described in the Statement of Work, Annex "A", and the technical and management portions of the Contractor's proposal dated _____.

- Firm lot price includes ALL applicable expenses, including but not limited to: supply of all labour, equipment, materials, tools, supervision, transportation, fuel, travel, accommodations, etc., to perform the work and is to remain firm for the period of the Contract.
- GST is not to be included in the prices but will be added as a separate item to any invoice issued against the Contract.
- F.O.B. Point: Defence Research and Development Canada - Suffield.

| Item | Description | Firm Lot Price (CAD \$) Excluding GST |
|------|---|--|
| 1 | To advance the state of the art in tracked all-terrain amphibious vehicle design, and to create a single vehicle platform that can be operated as both a man-drivable asset and a robotic asset for transport, load carriage, and other applications as per the Statement of Work, Annex "A". | \$ _____ |

SCHEDULE OF PAYMENTS/MILESTONES

| MILE-STONE | DESCRIPTION | AMOUNT CLAIMED | HOLD-BACK | AMOUNT DUE |
|---|--|----------------|--------------|------------|
| Following completion of the tasks and delivery of the relevant milestone report as follows: | | | | |
| 1. | Task: 1 - Mobility Platform Vehicles Design | | | |
| 2. | Task: 2 - Robotic Systems Design | | | |
| 3. | Task: 3 - Mobility Platform Component Construction/Purchase | | | |
| 4. | Task: 4 - Mobility Platform Assembly | | | |
| 5. | Task: 5 - Robotic Components Installation | | | |
| 6. | Task: 6 - Final Vehicle Delivery | | | |
| 7. | Following completion of all the work under the contract including the delivery of the vehicles on or before December 31, 2013. | | | |
| 8. | Release of holdback upon acceptance of all contract reports and deliverables by the Technical Authority. | ----- | (000,000.00) | |

ANNEX "D"
MANDATORY CRITERIA, EVALUATION CRITERIA AND SELECTION METHOD

I. MANDATORY CRITERIA

Mandatory Criteria at Solicitation Closing

Failure to meet any of the following mandatory requirements at solicitation closing will render your submission non-compliant and given no further consideration.

| I. MANDATORY REQUIREMENTS |
|---|
| 1. Price Proposal does not exceed the established budget. |
| 2. Education: At least one member of contractor (or sub-contractor) staff working on the project must have a university degree in electrical engineering, mechanical engineering or related field. |
| 3. Experience: Contractor (or sub-contractors) must be able to demonstrate experience designing and building all-terrain vehicles. |
| 4. Experience: Contractor (or sub-contractors) must be able to demonstrate experience designing and building large robotic vehicles. |
| Documentary proof is required at solicitation closing including but not limited to: Pictures, descriptions, customer information and other relevant project information with respect to this mandatory criteria. |

II. EVALUATION CRITERIA

POINT RATED CRITERIA

Each Technical Bid which meets all the Mandatory Criteria specified above, will be evaluated and scored in accordance with the following evaluation criteria:

| POINT RATED REQUIREMENTS: (Rating: 4=excellent, 3=very good, 2=average, 1=poor, 0=nothing) | | | |
|--|---------------|---------------|--------------|
| | WEIGHT | RATING | SCORE |
| 1. Demonstrated understanding of the scope and details of work to be performed. Extent to which proposed project matches stated requirements. | 3 | | |
| 2. Breakdown of the project into logical tasks; planning and detail of tasks; detailed schedule and timetable; realistic estimation of the time required to complete the work. | 1 | | |
| 3. Extent to which contractor (or subcontractor) can demonstrate a prior history of tracked all-terrain vehicle development. | 5 | | |
| 4. Extent to which contractor (or subcontractor) can demonstrate a prior history of robotic vehicle design and testing, specifically within a military context. | 5 | | |
| 5. Contractor (or subcontractors) can demonstrate tools, equipment, and facilities necessary for vehicle prototype construction and testing. | 2 | | |
| 6. Contractor (or subcontractors) can demonstrate ability and capacity to manufacture multiple vehicles for potential future orders. | 3 | | |
| 7. Adequacy and availability of staff or sub-contractors to carry out the project. | 3 | | |
| 8. Overall quality of technical proposal. | 3 | | |
| MAXIMUM TOTAL POINTS AVAILABLE | | | 100 |
| MINIMUM TOTAL POINTS ACCEPTABLE | | | 70 |
| TOTAL POINTS AWARDED | | | |

Each proposal must meet all of the mandatory requirements set out in the evaluation criteria. Proposals that fail to meet these requirements will be discarded without further consideration.

Each evaluation criterion has a number allotment (weight) that reflects its importance in proposal submissions. The degree to that the proposal satisfies the requirement of each criterion will be assessed and a "rating" will be assigned ranging from 0 to 4, with 0 meaning the proposal completely fails to satisfy the requirements, and the total allotment meaning the proposal fully meets the outlined criterion. A score will be assessed by multiplying the weight by the rating.

Each proposal must achieve a minimum score of 70% of the maximum points available overall. Bids that fail to achieve this score will be considered technically unacceptable and will be given no further consideration.

Solicitation No. - N° de l'invitation

W7702-135560/A

Amd. No. - N° de la modif.

Client Ref. No. - N° de réf. du client

CCC No./N° CCC - FMS No/ N° VME

W7702-135560

III. SELECTION METHOD:

Contractor selection will be based on the bidder that submits the highest rated technically acceptable proposal provided that the total evaluated bid price does not exceed the established budget.
