|---------|--------------------------|
| Annex A | Statement of Requirement |
| Annex B | Basis of Payment |
| Annex C | OEM Certification |

PART 1 - GENERAL INFORMATION

1. Security Requirement

There is no security requirement associated with the requirement.

2. Requirement

The requirement is detailed under Article 2 Requirement of the resulting contract clauses.

3. Debriefings

After contract award, bidders may request a debriefing on the results of the bid solicitation process. Bidders should make the request to the Contracting Authority within 15 working days of receipt of the results of the bid solicitation process. The debriefing may be in writing, by telephone or in person.

PART 2 - BIDDER INSTRUCTIONS

1. Standard Instructions, Clauses and Conditions

All instructions, clauses and conditions identified in the bid solicitation by number, date and title are set out in the *Standard Acquisition Clauses and Conditions* (<http://ccua-sacc.tpsgc-pwgsc.gc.ca/pub/acho-eng.jsp>) Manual issued by Public Works and Government Services Canada.

Bidders who submit a bid agree to be bound by the instructions, clauses and conditions of the bid solicitation and accept the clauses and conditions of the resulting contract.

The 2003 (2012-07-11) Standard Instructions - Goods or Services - Competitive Requirements, are incorporated by reference into and form part of the bid solicitation.

The text under Subsection 4 of Section 01 - Code of Conduct and Certifications - Bid of 2003 referenced above is replaced by:

Bidders should provide, with their bid or promptly thereafter, a complete list of names of all individuals who are currently directors of the Bidder. If such a list has not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to provide such a list within the required time frame will render the bid non-responsive. Bidders must always submit the list of directors before contract award.

Canada may, at any time, request that a Bidder provide properly completed and Signed Consent Forms ([Consent to a Criminal Record Verification form](http://www.tpsgc-pwgsc.gc.ca/app-acq/forms/formulaire-forms-eng.html) - PWGSC-TPSGC 229) (<http://www.tpsgc-pwgsc.gc.ca/app-acq/forms/formulaire-forms-eng.html>) for any or all individuals named in the aforementioned list within a specified delay. Failure to provide such Consent Forms within the delay will result in the bid being declared non-responsive.

The text under Subsection 5 of Section 01 - Code of Conduct and Certifications - Bid of 2003 referenced above is replaced by:

The Bidder must diligently maintain the list up-to-date by informing Canada in writing of any change occurring during the validity period of the bid, and must also provide Canada, when requested, with the corresponding Consent Forms. The Bidder will also be required to diligently maintain the list and when requested, provide Consent Forms during the period of any contract arising from this bid solicitation.

2. Submission of Bids

Bids must be submitted only to Public Works and Government Services Canada (PWGSC) Bid Receiving Unit by the date, time and place indicated on page 1 of the bid solicitation.

3. Enquiries - Bid Solicitation

All enquiries must be submitted in writing to the Contracting Authority no later than ten (10) calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the questions or may request that the Bidder do so, so that the proprietary nature of the question is eliminated, and the enquiry can be answered with copies to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

4. Applicable Laws

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the bidders.

PART 3 - BID PREPARATION INSTRUCTIONS

1. Bid Preparation Instructions

Canada requests that bidders provide their bid in separately bound sections as follows:

Section I: Technical Bid (2 hard copies)

Section II: Financial Bid (1 hard copy)

Section III: Certifications (1 hard copy)

Prices must appear in the financial bid only. No prices must be indicated in any other section of the bid.

Canada requests that bidders follow the format instructions described below in the preparation of their bid:

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to the bid solicitation.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, bidders are encouraged to:

- 1) use paper containing fibre certified as originating from a sustainably-managed forest and/or containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Bid

In their technical bid, bidders should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

Section II: Financial Bid

Bidders must submit their financial bid in accordance with the Basis of Payment. The total amount of Goods and Services Tax (GST) or Harmonized Sales Tax (HST) must be shown separately, if applicable.

1.1 SACC Manual Clauses

C3011T (2010-01-11), Exchange Rate Fluctuation

Section III: Certifications

Bidders must submit the certifications required under Part 5.

PART 4 - EVALUATION PROCEDURES AND BASIS OF SELECTION

1. Evaluation Procedures

- (a) Bids will be assessed in accordance with the entire requirement of the bid solicitation including the technical and financial evaluation criteria.
- (b) An evaluation team composed of representatives of Canada will evaluate the bids.

1.1 Technical Evaluation

1.1.1 Mandatory Technical Criteria

Item	
1	<p>The equipment offered must meet the mandatory technical specifications detailed at Annex A - Table 1. If any additional components, peripherals or supplies are necessary to meet all specifications and to operate the instrument on arrival at Environment Canada's site, these must be included in the Bidder's response and must be included in the Price at Annex "B".</p> <p>The Bidder must provide a concise and detailed response to each of the Mandatory specifications at Annex A - Table 1. Bidders must provide evidence (instrument specification, publication, documented data or discussion points) to support the fact that their system meets a specification, simply stating that the criteria is met, is not sufficient.</p>
2	<p>Bidders must have a minimum of 5 years experiences developing, manufacturing and installing UAVs. The Offeror must submit supporting documentation to substantiate the years of experience with their bid.</p>
3	<p>The Contractor must supply a copy of the flying certification issued by Transport Canada for the UAV proposed.</p>

1.2 Financial Evaluation

1.2.1 Mandatory Financial Criteria

The bidder must complete and submit with its bid, Annex "B" - Basis of Payment, in Canadian Funds. Pricing must be provided for all firm requirements.

Bids will be evaluated on the prices detailed in Annex B, Basis of Payment, as follows:

The price used in the evaluation will be the Total Evaluated Cost.

Total Evaluated Cost is calculated as follows: The Sum of Extended Price for items 1, 2, 3, 4, 5, and 6

1.3 A0220T (2007-05-25), Evaluation of Price

2. Basis of Selection

2.1 Basis of Selection - Mandatory Technical Criteria

A bid must comply with the requirements of the bid solicitation and meet all mandatory technical evaluation criteria to be declared responsive. The responsive bid with the lowest evaluated price will be recommended for award of a contract.

PART 5 - CERTIFICATIONS

Bidders must provide the required certifications to be awarded a contract. Canada will declare a bid non-responsive if the required certifications are not completed and submitted as requested.

Compliance with the certifications bidders provide to Canada is subject to verification by Canada during the bid evaluation period (before award of a contract) and after award of a contract. The Contracting Authority will have the right to ask for additional information to verify bidders' compliance with the certifications before award of a contract. The bid will be declared non-responsive if any certification made by the Bidder is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications or to comply with the request of the Contracting Authority for additional information will also render the bid non-responsive.

1. Code of Conduct Certifications - Certifications Required Precedent to Contract Award

1.1 Bidders should provide, with their bid or promptly thereafter, a complete list of names of all individuals who are currently directors of the Bidder. If such a list has not been received by the time the evaluation of bids is completed, the Contracting Authority will inform the Bidder of a time frame within which to provide the information. Bidders must submit the list of directors before contract award, failure to provide such a list within the required time frame will render the bid non-responsive.

The Contracting Authority may, at any time, request that a Bidder provide properly completed and Signed Consent Forms ([Consent to a Criminal Record Verification form](http://www.tpsgc-pwgsc.gc.ca/app-acq/forms/formulaires-forms-eng.html) - PWGSC-TPSGC 229) (<http://www.tpsgc-pwgsc.gc.ca/app-acq/forms/formulaires-forms-eng.html>) for any or all individuals named in the aforementioned list within a specified delay. Failure to provide such Consent Forms within the delay will result in the bid being declared non-responsive.

2. Certifications Precedent to Contract Award

The certifications listed below should be completed and submitted with the bid, but may be submitted afterwards. If any of these required certifications is not completed and submitted as requested, the Contracting Authority will so inform the Bidder and provide the Bidder with a time frame within which to meet the requirement. Failure to comply with the request of the Contracting Authority and meet the requirement within that time period will render the bid non-responsive.

2.1 Federal Contractors Program

Suppliers who are subject to the Federal Contractors Program (FCP) and have been declared ineligible contractors by Human Resources and Skills Development Canada (HRSDC) are no longer eligible to receive federal government contracts over the threshold for solicitation of bids as set out in the Government Contracts Regulations. Suppliers may be declared ineligible contractors either as a result of a finding of non-compliance by HRSDC, or following their voluntary withdrawal from the FCP for a reason other than the reduction of their workforce to less than 100 employees. Any bids from ineligible contractors, including a bid from a joint venture that has a member who is an ineligible contractor, will be declared non-responsive.

The Bidder, or, if the Bidder is a joint venture the member of the joint venture, certifies its status with the FCP, as follows:

The Bidder or the member of the joint venture

- (a) () is not subject to the FCP, having a workforce of less than 100 full-time or part-time permanent employees, or temporary employees having worked 12 weeks or more in Canada;
- (b) () is not subject to the FCP, being a regulated employer under the Employment Equity Act, S.C. 1995, c. 44;
- (c) () is subject to the requirements of the FCP, having a workforce of 100 or more full-time or part-time permanent employees, or temporary employees having worked 12 weeks or more in Canada, but has not previously obtained a certificate number from HRSDC, having not bid on requirements of \$200,000 or more;
- (d) () has not been declared an ineligible contractor by HRSDC, and has a valid certificate number as follows: _____.

Further information on the FCP is available on the HRSDC Web site.

2.2 OEM Certification

- (a) Any Bidder that is not the Original Equipment Manufacturer (OEM) for every item of hardware proposed as part of its bid is required to submit the OEM's certification regarding the Bidder's authority to provide and maintain the OEM's hardware, which must be signed by the OEM (not the Bidder). No Contract will be awarded to a Bidder who is not the OEM of the hardware it proposes to supply to Canada, unless the OEM certification has been provided to Canada. Bidders are requested to use the OEM Certification Form included with the bid solicitation. Although all the contents of the OEM Certification Form are required, using the form itself to provide this information is not mandatory. For Bidders/OEMs who use an alternate form, it is in Canada's sole discretion to determine whether all the required information has been provided.

-
- (b) If the hardware proposed by the Bidder originates with multiple OEMs, a separate OEM certification is required from each OEM.
- (c) For the purposes of this bid solicitation, OEM means the manufacturer of the hardware, as evidenced by the name appearing on the hardware and on all accompanying documentation

PART 6 - RESULTING CONTRACT CLAUSES

1. Security Requirement

There is no security requirement associated with the requirement.

2. Requirement

The Contractor must provide the items detailed under the Statement of Requirement at Annex "A".

3. Standard Clauses and Conditions

All clauses and conditions identified in the Contract by number, date and title are set out in the *Standard Acquisition Clauses and Conditions* (<http://ccua-sacc.tpsgc-pwgsc.gc.ca/pub/acho-eng.jsp>) Manual issued by Public Works and Government Services Canada.

3.1 General Conditions

2010A (2012-07-16), General Conditions - Goods (Medium Complexity), apply to and form part of the Contract.

The text under Subsection 4 of Section 29 - Code of Conduct and Certifications - Contract of 2010A referenced above is replaced by:

During the entire period of the Contract, the Contractor must diligently update, by written notice to the Contracting Authority, the list of names of all individuals who are directors of the Contractor whenever there is a change. As well, whenever requested by Canada, the Contractor must provide the corresponding Consent Forms.

3.2 Supplementary General Conditions

4001 (2010-08-16), Hardware Purchase, Lease and Maintenance, apply to and form part of the Contract.

4. Term of Contract

4.1 Delivery Date

The delivery of the Unmanned Aerial Vehicle (UAV) is requested for 12 weeks after contract award.

4.2 Period of Contract

The period of the Contract is for 5 years from the date of contract award.

5. Authorities

5.1 Contracting Authority

The Contracting Authority for the Contract is:
Name: Aaron Abela
Title: Supply Officer
Public Works and Government Services Canada
Acquisitions Branch
Directorate: Ontario Region
Address: 33 City Centre Drive Suite 480C
Mississauga, Ontario L5B 2N5
Telephone: (905) 615-2061
Facsimile: (905) 615-2060
E-mail address: aaron.abela@pwgsc.gc.ca

The Contracting Authority is responsible for the management of the Contract and any changes to the Contract must be authorized in writing by the Contracting Authority. The Contractor must not perform work in excess of or outside the scope of the Contract based on verbal or written requests or instructions from anybody other than the Contracting Authority.

5.2 Project Authority

The Project Authority for the Contract is:
(TBA at time of award)

Name: _____
Title: _____
Organization: _____
Address: _____
Telephone : _____
Facsimile: _____
E-mail address: _____

The Project Authority is the representative of the department or agency for whom the Work is being carried out under the Contract and is responsible for all matters concerning the technical content of the Work under the Contract. Technical matters may be discussed with the Project Authority, however the Project Authority has no authority to authorize changes to the scope of the Work. Changes to the scope of the Work can only be made through a contract amendment issued by the Contracting Authority.

5.3 Contractor's Representative

The Contractor's Representative for the Contract is:
(TBA at time of award, if required)

Name: _____
Title: _____
Organization: _____
Address: _____
Telephone : _____
Facsimile: _____
E-mail address: _____

6. Payment

6.1 Basis of Payment - Firm Price, Firm Unit Price(s) or Firm Lot Price(s)

In consideration of the Contractor satisfactorily completing all of its obligations under the Contract, the Contractor will be paid a firm price, as specified in Annex "B" for a cost of \$ _____ Customs duties included and Goods and Services Tax or Harmonized Sales Tax is extra, if applicable.

Canada will not pay the Contractor for any design changes, modifications or interpretations of the Work, unless they have been approved, in writing, by the Contracting Authority before their incorporation into the Work.

6.2 Limitation of Price

SACC Manual Clause C6000C (2011-05-16)

6.3 Single Payment

SACC Manual Clause H1000C (2008-05-12)

7. Invoicing Instructions

1. The Contractor must submit invoices in accordance with the section entitled "Invoice Submission" of the general conditions. Invoices cannot be submitted until all work identified in the invoice is completed.

2. Invoices must be distributed as follows:

(a) The original and one (1) copy must be forwarded to the address shown on page 1 of the Contract for certification and payment.

(b) One (1) copy must be forwarded to the Contracting Authority identified under the section entitled "Authorities" of the Contract.

8. Certifications

8.1 Compliance with the certifications provided by the Contractor in its bid is a condition of the Contract and subject to verification by Canada during the term of the Contract. If the Contractor does not comply with any certification or it is determined that any certification made by the Contractor in its bid is untrue, whether made knowingly or unknowingly, Canada has the right, pursuant to the default provision of the Contract, to terminate the Contract for default.

9. Applicable Laws

The Contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in _____.

10. Priority of Documents

If there is a discrepancy between the wording of any documents that appear on the list, the wording of the document that first appears on the list has priority over the wording of any document that subsequently appears on the list.

11 Insurance

The Contractor is responsible for deciding if insurance coverage is necessary to fulfill its obligation under the Contract and to ensure compliance with any applicable law. Any insurance acquired or maintained by the Contractor is at its own expense and for its own benefit and protection. It does not release the Contractor from or reduce its liability under the Contract.

12. SACC Manual Clauses

B1501C (2006-06-16) Electrical Equipment

ANNEX "A"

REQUIREMENT

1. **Title:** UAV (Unmanned Aerial Vehicle) - Platform for Meteorological Applications
2. **Background information.**

The Cloud Physics and Severe Weather Research Section of Environment Canada requires a UAV and one (1) additional spare sensor for the PANAM Olympics supersite capable of conducting boundary layer studies, air quality, and fog applications. The instrument will be located at the PANAM Olympics supersite and will measure 2D wind components as well as turbulence up to 1 km range and will be easily portable for various operations. The UAV will also be used to take continuous video images for a weather related event.

The Unmanned Aerial Vehicle will be used to take boundary layer measurements of temperature, wind, relative humidity, aerosol concentration, and air quality related parameters such as CO₂ and CH₄.

The boundary layer profiling and air quality related parameters are critical for sportive activities during PANAM Olympics and for GEM model as well as satellite validations. Continuous wind, RH, T, and aerosol measurements will be used for decision making during the PANAM games and will also be used for high resolution NWP validations. It will also be used for Arctic studies and for ice nucleation studies post PANAM games.

3. **General Requirements**

Training: The Contractor must provide an in-person training program at the Contractor's site for two (2) designated Environment Canada employees. The UAV training solution must include the topics of installation, required maintenance, common issues & solution examples, and UAV flying requirements. UAV Software training must also be provided.

The Contractor must supply two (2) English User manuals for the UAV by the conclusion of the training session.

Support:

The Contractor must provide performance checks on the data quality and operational effectiveness of the UAV for five (5) years commencing from the date of installation completion.

The contractor must provide continuous support for installations of the additional sensors into the UAV throughout the duration of the Contract. Sensors will be purchased separately by EC. The additional sensors must be installed on an "as and when requested" basis by the Contractor.

Warranty: The Contractor must provide an extended warranty period of four (4) additional years beyond the initial 1 year warranty period.

4. Technical Specifications

1. The UAV must be have a 110V AC operation power requirement
2. The UAV must be supplied with a command station with pre-installed software allowing for special mapping capability to control the UAV. Special mapping capability is defined as software that provides a detailed Global Imaging System (GIS) map.
3. Spare Parts: The Contractor must provide a spare parts kit for servicing and maintenance as part of the contract.
The spare parts kit must include:
One (1) set of propellers
One (1) additional battery
4. The UAV must be supplied with a battery charger.
5. The UAV must meet each of the specifications outlined in Table 1 .

Table 1

Item	
Specifications	
1	Must have an adjustable height range from 0m to a nominal maximum height of 1000m
2	Must resist turbulence and wind speed up to 50 m s-1
3	Must have data averaging times as 1 sec to mins.
4	Must operate in temperatures of -40 to +50 C and also proven Arctic applications
5	Must measure horizontal wind speed up to 50 m/s
6	Must measure horizontal wind with an accuracy of 0.1 m/s and vertical winds at 0.1 m/s or better
7	Must measure wind direction with an accuracy of 5 degrees
8	Must have User-selectable flight patterns and GPS system
9	Must fly for a minimum of 15-30 mins
10	Must have remote operation, access to system parameters, variables, testing, data quality checks
11	Must collect the data in defined flight paths
12	The UAV must measure the following variables: -- wind speed and direction -- pressure -- altitude
13	The UAV software must provide raw data used for deriving wind speed and pressure. Raw data is defined as including UAV inertial navigation system data, and time.
14	Must provide data up to 1km in height
15	The UAV must be portable and weigh 10 kg or less.
16	The UAV must have visualization specifications - 10x picture resolution - 10x video imaging
17	The UAV must have color displays in real-time directly from the data software
18	Plot options must include: profiles, time series, vector, correlation, wind rose, histograms

19	Must be able to modify the software and hardware to add parameters such as T, RH, CO2, and O3.
20	Must export graphs in real time using standard image formats (such as bmp, png, jpg etc)
21	Must have the choice of export CSV or ASCII formats for data in real time
22	Must provide the following output parameters when sensors are provided: -- Profiles of wind speed and direction -- Pressure -- GPS locations -- Picture and images. -- Temperature -- RHw -- Aerosol concentration

ANNEX "B"**BASIS OF PAYMENT**

The firm unit price must be an all inclusive price, in accordance with Annex "A" - Requirement, in Canadian funds including Canadian customs duties, excise taxes, F.O.B. destination, including all delivery charges specified. The firm unit price must also include any installation, warranty, testing and training costs as detailed below. The total amount of Goods and Services Tax (GST) or Harmonized Sales Tax (HST) is not included.

Item	Description	Quantity	Unit Price	Extended Price
1	UAV as per specifications detailed in Annex "A" - Requirement	1	\$	\$
2	Spare Sensor for UAV	1	\$	\$
3	UAV Training: For two (2) Environment Canada employees to be provided within _____ (__) days of installation completion	1 lot	\$	\$
4	Spare Parts Kit Includes one (1) set of propellers and one (1) additional battery	1	\$	\$
5	Warranty Extension Includes software upgrades for each license supplied for a period of five (5) years.	1 lot	\$	\$
6	Support & Maintenance Includes performance checks on the data quality and operational effectiveness of the UAV for a five (5) year period.	1 lot	\$	\$
7	Delivery and Installation	1 lot	\$	\$
Total Evaluated Cost \$ _____
